453 KIPP Metro Atlanta Schools alumni in college

185 High school varsity athletic events

880 College Acceptances

\$15,000,000+
Earned in college scholarships

KIPP Friends & Family,

As we near the end of 2018, it is a wonderful opportunity to reflect on the past school year and look forward to the future. As part of that reflection, I am excited to share an overview of the 2017-18 school year with you. In lieu of our traditional annual report, I wanted to take this opportunity to provide a deeper and different glimpse into the amazing work happening throughout our region over the course of the school year.

Our students, families, and team members come together every day united around the same goal: college and a choice-filled life. There are numerous factors that go into that goal throughout the year, from the number of books our students read to the number of miles our buses travel taking students to and from school. In addition to this overview of the 2017-18 school year, summaries of our state testing and financial statements are available online (just scan the QR code on back or visit <http://bit.ly/18report>).

I encourage you to explore KIPP By The Numbers!

In addition to educating 3,669 students in eight schools, we also spent last year preparing for our next phase of growth as a region. KIPP Soul Primary School opened in July 2018 and in July 2019 our KIPP teachers and leaders will begin managing Woodson Park Academy, a K-5 neighborhood school, in partnership with Atlanta Public Schools. These are the first two steps on our path to educating 7,000 students in 14 schools.

In closing, I want to thank you for partnering with us on this journey. We know that the need for high-quality, college-preparatory education is great and I am honored to be able to work with our entire team & family to expand this opportunity for even more Atlanta families.

With Gratitude,
Kinnari
